

## PECSAA Golf Rules & Regulations

- A.** Cumulative scoring will determine the season conference champion of matches played throughout the season.
- B.** Every team should try to play the other schools at least once to get an equal amount of matches. (Example: If BSS plays IHM twice the lowest score will be used for the team score that counts for the conference)
- C.** Scores for matches are nine holes and the top four players in a match (out of six) determine your team score.
- D.** We will play all matches from the Red tees (Most forward tees).
- E.** Double par max on holes to speed up play.
- F.** No out of bounds. Treat a shot hit out of bounds like a hazard with the nearest point of relief and taking a penalty stroke. This is also to speed up play.
- G.** Water Hazards: When you hit into the water, ball drop on the other side of the hazard. NOT the front side to continue to hit over the water hazard.
- H.** No coaching from parents during play. Please let the kids play and figure it out by themselves. Coaches can roam around and give advice if needed but please don't follow one of your players around for six holes giving advice on each shot.
- I.** Probably best to play winter rules where kids can roll over the ball in the fairway or on the fringes.
- J.** All holes must be finished where everything must be putted in. If it's not then it's an automatic double par.
- K.** The final conference match will be all teams that play nine holes in the PECSAA tournament championship.
